

Village Elementary School

Grade 4 Report Card 2007 - 2008

Marking Period

MATH	1	2	3
Numbers and Operations			
Understands place value to the millions			
Compares and orders whole numbers, fractions, and decimals			
Understands and applies concepts of addition and subtraction			
Understands and applies concepts of multiplication			
Understands and applies concepts of division			
Knows and uses basic facts			
Understands and applies concepts of fractions			
Understands and applies concepts of decimals			
Understands and applies concepts of money			
Understands and applies rounding and estimation			
Algebra			
Recognizes, constructs, and extends patterns			
Identifies unknown in equations and sequences			
Geometry			
Understands symmetry and motion			
Identifies and classifies polygons and solids			
Understands and applies concepts of area, perimeter, and volume			
Measurement and Time			
Continues to develop proficiency with concepts of time			
Understands and applies units of measurement			
Probability and Statistics			
Reads, produces and interprets data from graphs and charts			
Understands and predicts possible outcomes using statistics			
Understands and interprets data using range, median, mode and mean			
Math Processes			
I – Uses strategy independently			
TG – Uses strategy with some teacher guidance			
DS – Uses strategy with direct and frequent support			
NC – Not currently demonstrating behavior			
Slash (/) - Not assessed during this marking period			
Uses mental math strategies			
Uses math tools and manipulatives to explore, solve, and explain			
Uses a variety of appropriate strategies to solve problems			
Explains and justifies solutions clearly and completely			
Uses strategies to insure accuracy (copies numbers correctly, reads directions carefully, checks finished work)			

Grading Key

- AP** - Advanced Proficient
- P**- Proficient
- PP**- Partially Proficient
- NC**- Not currently demonstrating this Behavior
- Slash (/)** - Not assessed during this marking period
