

ACCESSORIES FOR PE

CLASS MANAGEMENT SYSTEM

The fast and easy way to help you distribute, collect and track your heart rate monitors. It holds up to twelve heart rate monitors and comes with a stick-on numbering system to help you sort and store them. Plus, its convenient mesh bag helps you organize the elastic straps by size and can be used to wash the straps. The Class Management System hangs virtually anywhere, and when class is over, it folds up for easy storage.

ELASTIC STRAPS

Designed for optimum performance while providing comfort. Additional individual straps for all E Series heart rate monitors are available in a variety of sizes: extra-small, small, medium and large. (Compatible with T31c, T31 and T61 transmitters)

E600 PC INTERFACE

This USB interface allows for easy data transfer between a computer or TriFIT™ System and the E600 heart rate monitor. Save time by programming all of your E600s using E Series Software and the E600 PC Interface, and download heart rate files from the monitors directly to your computer or TriFIT System.

IT ALL STARTS WITH TEACHERS

STUDENT INSTRUCTIONAL BANNERS

Colorful 5'x 4' banners make it simple for your students to use heart rate monitors and record their workout information. Provides step-by-step visual instructions that demonstrate how to start, stop, recall and record data from the E600 and E200.

TANITA® SCALE

Displays weight and body fat percentage. Fully integrated with the TriFIT System and is a non-invasive, hands-off way to measure body fat.
