

Welcome to Clewell's Corner!  
The one stop shop for all the  
news & happenings in room 101!

## COLDER WEATHER

The weather has begun to change as we enter into the fall season.

We go outside AS **OFTEN AS POSSIBLE**. PLEASE send your child in with a jacket and gloves that are **LABELED**. We want to enjoy the fresh air as MUCH as possible but we want to make sure the children are wearing the appropriate clothing.

There's nothing sweeter than all of the AMAZING help our class received by the parents who volunteered for the class parties! The kids had an amazing time!  
**THANK YOU THANK YOU!!**

# WHAT CAN YOU EXPECT FROM PARENT TEACHER CONFERENCES?

I am looking forward to seeing you all in November! Our 15 minutes goes by quickly so I wanted to share with you what to expect and how we can work together to make our time meaningful.

## When you arrive we will discuss:

- General conversation about your child's interaction with their peers, ability to follow directions and social/independence skills
- Your child's fall assessments
  - specific areas of strengths and the areas that I am working on.
- Review of student work
  - Self portrait
  - Handwriting/Name Model

# HOW CAN YOU PARTICIPATE?

Prior to meeting with me for conferences I would have a conversation with your child....yes! even your 3 year old :) Ask them what they like about school....is there anything that is hard for them?

Think about the goals you have for your child

- What have they achieved in the last 2 months?
- What would you like their next mini goal to be?
- How can I help you at home?

Parent teacher conferences are all about working together as a team and making the best plan....TOGETHER for your child!

# FIRE PREVENTION MONTH

October was fire prevention month! We had great visits with the fire department and incorporated the fire theme into our small group rotations. We created graphs, sorted by size and worked on patterns!

## LETTER PRACTICE

As we move further into the year we are working more on handwriting and letter practice. There are so many AWESOME and fun ways to practice this at home if you want to extend this activity.

Here are just a few ways we practice this in school:

Shaving cream and paintbrushes

Gel bags

Sand Containers

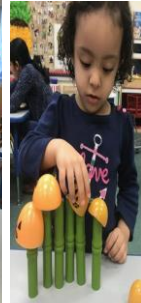

Floral Vase Beads

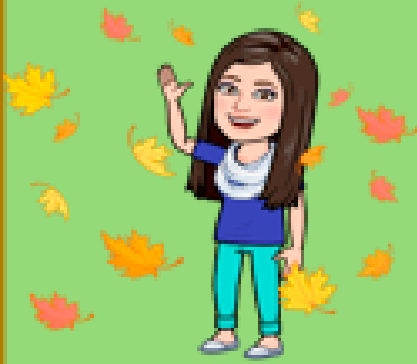

## SCIENCE EXPLORATIONS

Science and preschool go hand in hand! The way that our youngest learners take in information is through active participation! They love to touch, build, do and explore....So when faced with a challenge that involves being hands on they are literally...ALL IN! Take a look at three of our explorations this month. Create a Roller coaster, building goldilocks a chair and setting 5 pumpkins on a gate! Students are given a task to try and solve with specific materials.

# NOVEMBER
