Welcome
BACK to
SCHOOL
are you ready?!

Welcome to Our New Class of 2032!

We are so excited to welcome our new class of students! Whether we are virtual or in-person, your school counselors are here for you! We teach social and emotional whole-class lessons, offer small-group skill based opportunities, and short-term individual counseling to improve school success.

Please [click here](#) to be brought to our OHES School Counselor website for more information about the role of a school counselor and books to support your upcoming kindergartener!

How Can We Help?

You are not alone! If your family is going through a hardship and you would like to know what resources may be available to you, please contact your child's school counselor so they can help. This communication is kept confidential unless you would like it shared with the school.

With the upcoming return to virtual learning and a pending transition to in-person instruction, your OHES school counselors created a Needs form. Please take a moment to view the form [here](#) and complete if appropriate.
