### NEW BUSINESS FROM BOARD/PUBLIC

Members of the public commented on the following:

Mr. Craig Buszka, MHS Science Teacher, asked that teachers be included in discussions regarding changes in the program of studies. He commented that the Montgomery teachers are leaders within their field with valuable input. He would like more effort made toward collaboration in curriculum decisions.

Mr. Adam Wirsul concurred with Mr. Buszka's comment regarding collaboration. He also asked that a task force be assembled to investigate the rising cost of the district's health benefits, he asked about the cost of an athletic agreement from the Jan. 9<sup>th</sup> meeting and requested an update on the suggestion that students be utilized in revamping the district's webpage.

Dr. Paul Johnson, referring to the January 9<sup>th</sup> SIOP presentation, asked when data requested would be available.

Ms. Nastus explained the process by which the science curriculum was developed, noting that Mr. Paul Popadiuk, Principal of Montgomery High School and Mr. Jason Sullivan, Supervisor of Science 9-12, were both very involved in the process and that there was an open door policy for teachers to express opinions. The new course was approved by the Assessment, Curriculum and Instruction Committee and the Board. She lamented that Mr. Buszka did not feel that there was an opportunity for dialog and these concerns will be shared to make sure that teachers feel validated.

Mr. Doshi and Ms. Rao commented that their experiences have supported the belief that Montgomery has a “phenomenal” science department that is enviable within the state.

The board and Ms. Nastus also reiterated that the new science program will have the same rigor and lead to the same pathway as a “viable and robust alternative” for students opting not to take physics as freshman.

Mr. Cavalli responded that the board would respond separately regarding information about health benefits.

Ms. Wells noted that there was no cost to the athletic agreement approved at the January 9<sup>th</sup> meeting.

Mr. Cavalli noted Ms. Chenette as the chair of the Communications committee would be looking into options and costs in revamping the district’s webpages.

Ms. Nastus replied to Dr. Johnson that data will be forthcoming from the Assessment, Curriculum and Instruction Committee.

Mr. Cavalli asked Mr. Jacey to update the board on the recent Operations, Facilities and Finance Committee meeting as it pertained to the budget. Mr. Jacey reported the following:

- The committee is working to develop the budget to meet the six budget goals as follows:
  1. Keeping the budget with the 2% Tax Levy Cap
  2. Aligning budget priorities with the Strategic Plan
  3. Having budget managers keep costs at or below the 2017/18 budget
  4. Prioritizing current programs and reallocating funding to appropriate programs
  5. Developing the technology budget after careful consideration of current resource utilization and formal vetting of the most appropriate devices/tools/software for our students
  6. Integrating the budget fully with negotiating strategies
- It may not be enough to keep budget managers at last year’s levels. Managers may need to be asked to go below last year’s budgeted amounts.
- Programs may need to be evaluated to see if opportunity exists to reallocate funding.
- Some programs are required that have a greater increase than the 2% budget cap.
- The BOE may find it necessary to utilize the health benefit waiver to allow an increase over the 2% cap due to the magnitude of the increase in health benefits.
- Three proposals were received from security consultants for a Safety and Security Audit that will be reviewed by the committee.
- There will be a policy change increasing the facility usage fees by 2% for the 2018/19 school year.
- Having Mr. Mason from the MTEA on the committee was a benefit in increasing the understanding and partnership in formulating the new budget.

**PUBLIC COMMENTS**

Members of the public questioned and commented on the following:

Mr. Adam Wirsul commented on the following:

- Suggested that the BOE reach out to pharmaceutical companies and describe their position regarding the increasing cost of prescription drug coverage.
- Reiterated that the culture within the district should be one of collaboration
- Questioned when the new science course will be rolled out and whether there were any projections as to which students would take the course.

Ms. Nastus replied that she was working with Mr. Sullivan and counselors to get information to parents regarding the new program, emphasizing the rigor and pathway in which the new course would lead students. Mr. Herte commented that students would also be getting a “live view” of the new course so that they could make an informed decision. Collaboration in developing and introducing the new course was also discussed.

Mr. Cavalli also commented on some items which were brought up at previous meetings that he felt a need to address:

- Montgomery teachers are highly respected and coveted both within as well as outside the district. He asserted that the board will do their best to compensate these professionals for their dedicated and esteemed service.
